## Long Beach Marinas

Alamitos Bay Marina, Long Beach Shoreline Marina, and Rainbow Harbor Marina

## From the Manager

Boating season is upon us, can't believe how quickly the time has passed. Hoping you can join us in celebrating the culmination of the 7-year journey for new docks, gangways and slips at Alamitos Bay Marina. This is our way of thanking all of you for your patience, cooperation, and support of this incredible project. It is your home and I hope you are as proud of it as we are. So, come out for some chicken and waffles and to say hello. Look for the tent area next to the former Joe's Crab Shack restaurant on Saturday, April 28 from 10:30AM until Noon.

*New dock construction during the multi year, multi phase marina rebuild.*

*See the new docks, join us for boat owner appreciation and the grand re-opening of Alamitos Bay Marina.*

In the next few weeks, the boat owner parking lots at Alamitos Bay Marina will be slurry sealed and re-stripped. Our Maintenance Division will be installing new signs, and stripping a "Restricted" white line across boat owner stalls throughout, Basin 2 and 3, like the "Restricted" strip in the Basin 1 parking areas. You will also notice a reallocation of boat owner parking in general, i.e., additional stalls for boat owners. And lastly, we have been working on the restroom planter irrigation systems and working on a landscape pallet which will be implemented shortly (well, City style shortly).

Keeping it short this time,

## Attention Boat Owners Kidde Fire Extinguisher Recall

Kidde announced a voluntary recall to replace certain model fire extinguishers. These models can become clogged or require excessive force to activate, posing a risk of failure to discharge. Additionally, the nozzle can detach with enough force to pose an impact hazard. The product recall involves two styles of Kidde disposable fire extinguishers: **plastic handle fire extinguishers** and **plastic push-button fire extinguishers**.

### Affected Fire Extinguishers with Plastic Handles.

If the extinguisher has a gauge, the first thing to look for is a vertically oriented pull pin that is either fixed with two connections or hanging with a single connection.

**Push-Button Pindicator Fire Extinguishers.** The other type of affected extinguisher is the push-button Pindicator design. These extinguishers have push buttons, and a T-shaped pull pin and a loop handle. These units come in two sizes and are either red or white.

For more information please visit: <http://www.kidde.com/home-safety/en/us/support/product-alerts/recall-kidde-fire-extinguisher/>.

## Adopt a Student Panthers At Sea

Panthers at Sea are on a mission. The annual event on May 12 is an opportunity for many students as it will be their first time seeing the sea and being on a boat with an opportunity to sail.

After safety training, small groups of students are assigned to a private sailing yacht with a representative from the Long Beach School District. Volunteer skippers share their home waters, experience and wisdom of sailing with the students. This program has been credited by the faculty of Jordan in "setting a new course" for students.

Co-Chair of the Panthers at Sea, James Townes, said that being in the water broadens student's knowledge of the sea and gets them interested in science, technologies, engineering and math.

The adopt-a-student program is available for a nominal fee. Sponsoring a student will cover their lunch and a tee shirt on the day of the event. Volunteers and skippers are always welcome and very much appreciated. To adopt a student, volunteer your services, or for more information on the Panthers at Sea program and the Jordan High School Summer Sailing Camp email or call James Townes at J.townes@verizon.net or (562) 951-5810.
